SUMMARY

Tech enthusiast with a growing foundation in web development and UI design. Skilled in building user-friendly interfaces, exploring modern tools, and continuously learning to improve my development skills. Passionate about creating clean, functional digital experiences and motivated to expand my expertise through real-world projects and hands-on practice.

EDUCATION

- **P.A. COLLEGE OF ENGINEERING**

2023 - 2027

B.E. In Computer Science and Engineering

- **Yenepoya PU College**

2021 - 2023

P.U.C. IN SCIENCE (PCMC)

PROJECTS

- **Nexus Care**

intelligent healthcare assistant that guides users from symptoms to the right medical support

– Technologies Used: React.js, HTML, CSS, JavaScript (frontend), Node.js, Express.js (backend), MongoDB Atlas (database).

- **MediTracker**

simple tool that helps users record their medicines and track expiry dates so they never miss or use outdated medications. It provides an easy, organized way to manage daily health and medicine schedules.

– Technologies Used: HTML, CSS, JavaScript (frontend), JSP & Servlets (backend), MySQL (database). – Built the user interface using HTML, CSS, and JavaScript, with server-side processing handled through JSP and Servlets.

- **Movie Ticket Management System**

allows users to browse movies, check show timings, and book tickets easily through a simple and user-friendly interface.

– Technologies Used: HTML, CSS, JavaScript (frontend), Java/JSP/Servlets (backend), MySQL (database). – Developed the user interface with HTML, CSS, and JavaScript; handled server-side operations using JSP and Servlets; stored movie, user, and booking data securely in MySQL.

SKILLS

Languages Python, Java

Web Development HTML, CSS, Javascript

Creative Tools Figma, Canva

Databases MySQL, MongoDB

Soft Skills Problem Solving, Self-learning, Adaptability, Team Work.
